

2 THE RESCUE

LIFE SAVING TRAINING

TACTICAL ACCIDENT AVOIDANCE

“...best hands-on training our department has ever done...These are techniques that you will not learn by doing the usual rodeo driving course.” - Fire Chief Fabiano

“Awesome class! It gave a real life feeling and makes you think.” - Firefighter Carr

“Very good training...should be required for all drivers!” - Firefighter Looman

“In the Seat” Drivers Training

\$50.00 per person

Price and Hours Vary

Michigan EMS Continuing Education Approved

95% of all accidents are preventable or avoidable when drivers are prepared. This “behind the wheel” training will arm drivers with techniques that will save lives, minimize damage and reduce operating costs immediately.

This practical skill training goes above and beyond any state mandated courses by offering strategies that have previously been offered to *law enforcement only*.

- Brake and Steer Avoidance
- Evasive Maneuver
- Off Road Recovery
- Intersection Approach and Cleaning
- Braking Capabilities and Limitations
- Vehicle Dynamics

Do not wait for a tragedy to occur! Prepare your drivers to operate safely and efficiently while minimizing liability, lowering insurance costs and reducing employee time off from driving related accidents.

Our training is guaranteed to change driving attitudes and modify driving behavior!
